

# PA SPEAKER INSTRUCTIONS

## → Speaker Stands:

- ◆ Use tightening screw to keep legs in place once folded out

- ◆ Adjust height of telescopic pole to desired height and use screw to tighten

- ◆ Locate the hole on the bottom of the speaker and lift speaker onto pole. Tighten screw to secure

→ **Microphone Stands:**

- ◆ Follow the same procedure as above and attach horizontal pole to stand and tighten clip. To adjust level of horizontal pole, move up or down then tighten into place with large black screw

- ◆ Attach microphone to horizontal pole but sliding it into the small holder at the end of the pole and then connect the microphone cord to the bottom of the microphone

→ **Speakers:**

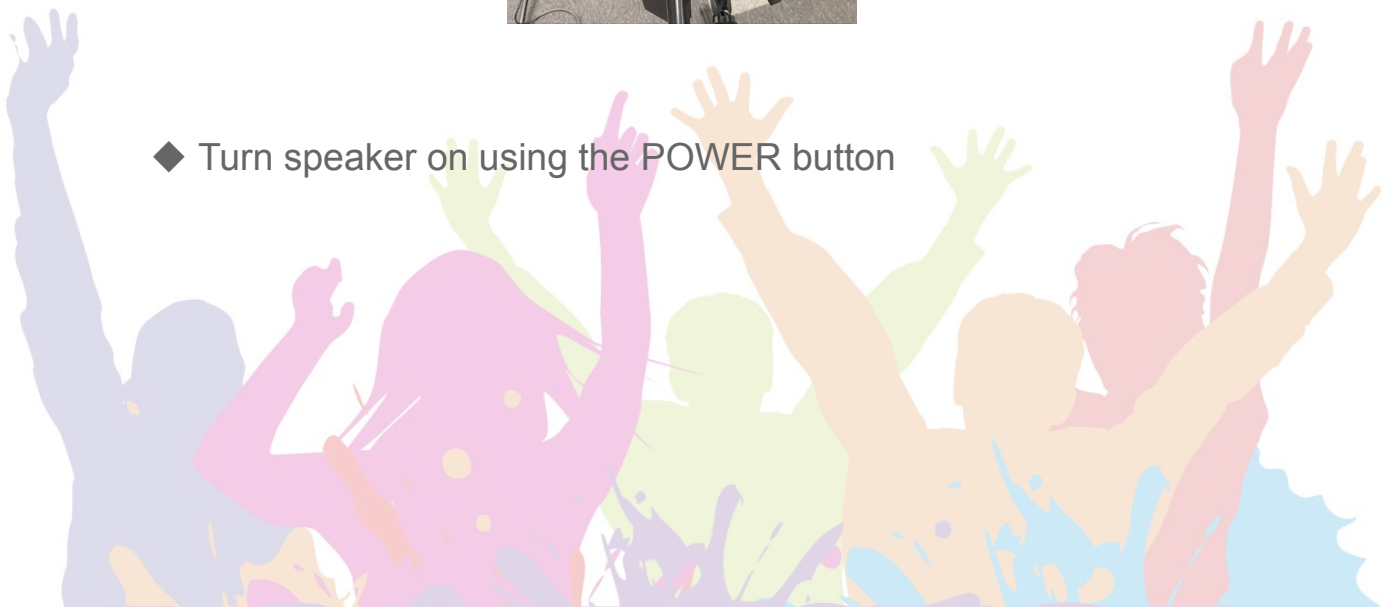

- ◆ Connect power cord to back of speaker

- ◆ Connect microphone cord into microphone port on back of speaker (this can be any speaker/any compatible port)
- ◆ Ensure “Channel” dial is turned up (this controls microphone sound) and flick input button to “MIC”

- ◆ Turn speaker on using the POWER button

## → Pairing Bluetooth Speakers:

- ◆ Press and hold the STEREO LINK button for 3 seconds on each of the speakers you'd like to connect. Once connected a voice will sound from the speaker "Speaker Connected". The orange light on the back will also stay solid

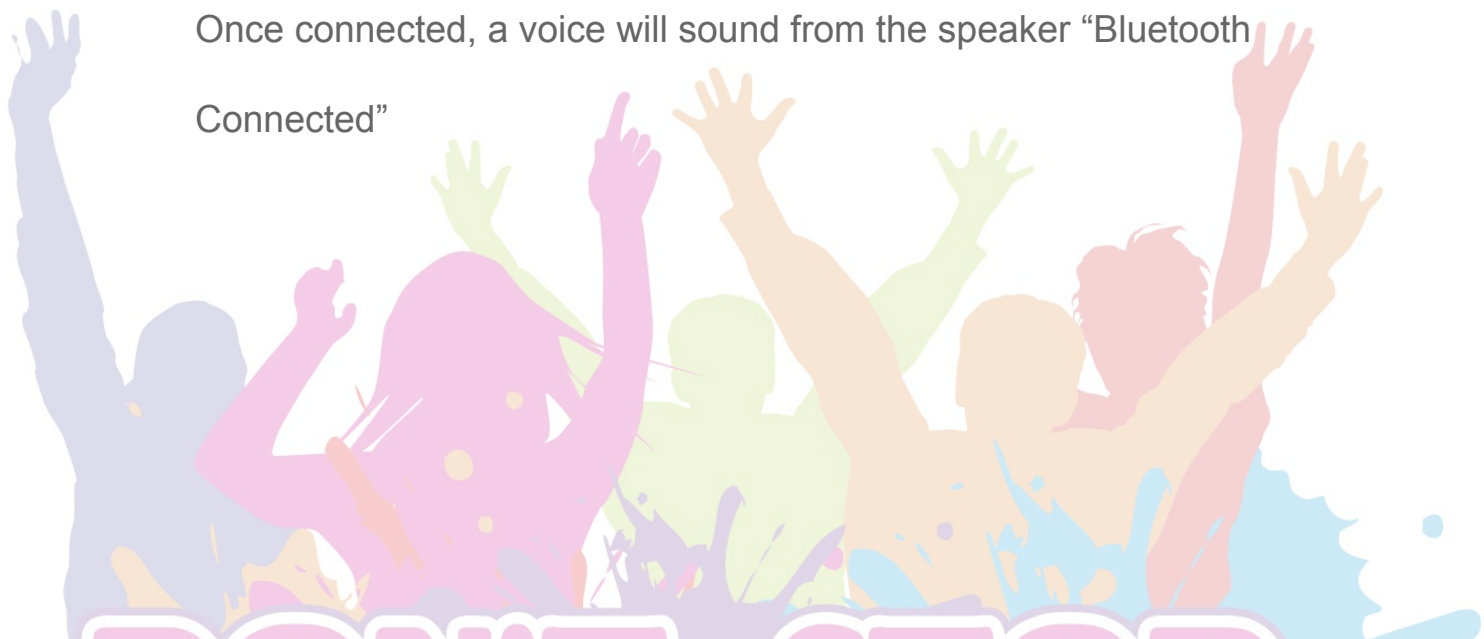

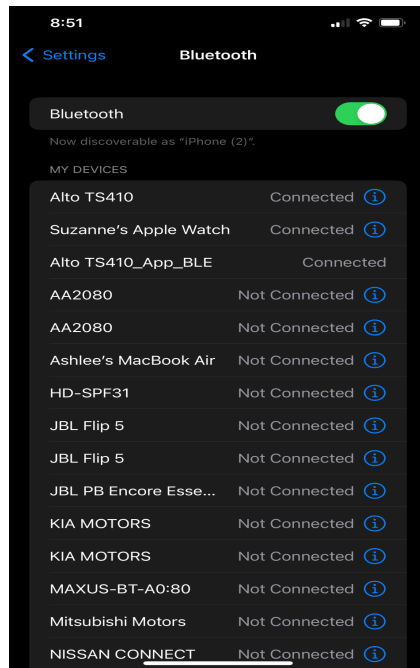

## → Bluetooth Connection:

- ◆ Press and hold the BLUETOOTH PAIR button for 3 seconds. Once connected a voice will sound from the speaker “Speaker Connected”.  
The “PAIR button will flash blue when scanning

- ◆ Go to the Bluetooth settings on your phone and connect to ALTO TS410.  
Once connected, a voice will sound from the speaker “Bluetooth Connected”

- ◆ Once Bluetooth connection has been made, ensure Bluetooth volume is turned up
