

PAR CAN LIGHT INSTRUCTIONS

→ Ensure power cable is plugged into light and then plug into standard power

◆ The light will flash quickly and go to the last selected mode

→ Use the MENU button to scroll through mode options (note that “STAT” is the most popular - simply select a colour):

- ◆ ADDR - DMX mode
- ◆ STAT - STATIC colours
- ◆ AUTO - AUTO colours
- ◆ SPEE - AUTO/SPEED adjustment
- ◆ STRO - STROBE rate (0 for no strobe, 1-9 for strobe rate)
- ◆ DIMM - Dimmer adjustments

→ Once you've identified the mode you want to use, press ENTER then use the UP/DOWN buttons to make any adjustments

- ◆ EG. For STATIC red colour - press MENU until you reach STAT > press ENTER > press UP/DOWN until the light goes red
