

MARKET UMBRELLA INSTRUCTIONS

- Screw the extension pole to the umbrella top. The extension has a male thread whilst the umbrella top has a female thread. Take care not to cross thread when screwing together

- Once connected, the umbrella pole inserts to the upright pole of the base plate.

Tighten the grub screw on the base plate pole to secure the umbrella pole

- Find the sliding arm of the umbrella and push up until the fixing holes are located.
- Insert the gold pin at the desired height and the umbrella is now set and secure
- ***Always take care in windy conditions and take down your umbrella if conditions become too gusty
